ADJUSTABLE LIGHTING

DELUXE 2" SOCKET EXTENSION NON-ADJUSTABLE EXTENDER MEDIUM BASE TO MEDIUM BASE FOR UP TO 150 WATT LAMPS

29980

29980: 2" Socket Extender
Medium to Medium Base Rated 660W – 250V

Overall Length: 3-1/8"

Outside Diameter: 1 1/2"

Extends Socket: 2"

Lamps: Up to 150 Watt PAR-38 Halogen Reflector Lamps
(lamps not included)

SOCKET EXTENDER RETROFIT LIGHT CONVERTER

Socket Extension easily screws into an existing medium base socket and allows you to extend lamp an additional 2 inches.

The male screw in base features a built-in ratchet mechanism that prevents over tightening of lamp.

Use independently, or in conjunction with suitable existing recessed fixtures.

Convert deep recessed housings, or other lighting fixtures to accommodate PAR-38 lamps that replace R-40 lamps.

Ideal retrofit for short neck PAR-30 lamps that replace longer R-30 or long neck PAR-30 lamps.

Use also to retrofit with medium base Compact Fluorescent self-ballasted lamps.

- **High quality porcelain socket.**
- **Copper, nickel plated, female screwshell.**
- **Brass, male screwshell.**
- **Rated 660 W - 250 V.**
- **For use with up to 150 watt medium base halogen reflector lamp.**
