## OUTDOOR CANOPY STYLE SWIVEL LIGHTS

Universally adjustable lighting that illuminates any setting with Swivelier's easy to install outdoor canopy style units.

Available in single or double light configurations.

Use for general illumination, flood or spot lighting, for accent and security. Use canopy lights to light up entrance ways, driveways, under eaves, trees, outdoor landscaping and sculptures.

5-1/8" diameter canopy, 7/8" deep fits standard 3" or 4" outlet boxes. Unit provided with mounting strap and pre-stripped wire leads.

Sockets & canopy provided with sealing gaskets for complete weatherproofing.

Use with Halogen reflector PAR-20, PAR-30 (long or short neck), and PAR-38 lamps.

These fixtures operate on 120V current. For added safety all wiring connections are made internally to eliminate shock hazard. Medium base socket is rated 660W-250V.

Swivelier's patented spring tension swivel rotates a full 360° and angles 90°.

The swivel socket stays put without levers or set screws. A touch of the finger puts the light in any direction you desire for maximum flexibility.
